SUBJECT INDEX

Abomasal fluids of aborted and unaborted bovine fetuses, Immunoglobulins in 161

Acid-base disturbance, acute, Changes in blood composition and urinary mineral excretion in the sheep in response to 43

Adenoviruses — Pathology of natural canine adenovirus pneumonia 207

Adenovirus, bovine, types 3, 4 and 8 from free-living African buffaloes *(Syncerus caffer)*, Isolation and characterisation of 69

Adrenal glands in pigs, Weight and ascorbic acid content of 219

Aflatoxin — Effect on calves of barley naturally contaminated with ochratoxin A and groundnut meal contaminated with low concentrations of aflatoxin B_1 213

Age estimation of cattle, Use of second molar eruption in 65

Age — Use of maxillary tooth development to estimate age in a group of Hereford cross Friesian steers 328

Akabane virus, Experimental infection of bulls with 157

Allografting and autografting of bovine ocular squamous cell carcinoma 48

Anthelmintic effect, Prolonged, of closantel and disophenol against a thiabendazole selected resistant strain of *Haemonchus contortus* in sheep 104

Anthelmintic resistance in gastrointestinal nematodes from goats, Investigations for 116

Anthelmintics — Biological activity of some novel benzimidazole anthelmintics 257

Antibody levels in cattle naturally infected with *Taenia saginata* metacestodes in Britain 62

Antisera, Antibovine IgG subclass specific, from guinea pigs and goats, Evaluation of 147

Antibovine IgG subclass specific antisera from guinea pigs and goats, Evaluation of 147

Antigens and mitogen, Inhibition of the blastogenic response of peripheral blood mononuclear cells to, by bovine pulmonary macrophages and their culture supernatants 272

Arthritis — Isolation of viruses from outbreaks of suspected tenosynovitis (viral arthritis) in chickens 100

Atropine — Changes in plasma pancreatic polypeptide and gastrin in sows after eating and atropine 140

Aujeszky's disease virus infection, Preparation and efficacy of an inactivated subunit vaccine against 261

Aujeszky's disease virus, Influence of environmental factors upon the survival of 32

Autografting and allografting of bovine ocular squamous cell carcinoma 48

Avermectins, major, thiabendazole and levamisole hydrochloride, Efficacy of, against *Trichostrongylus colubriformis* in the gerbil *(Meriones unguiculatus)* 255

Babesia bigemina, Increased numbers of strahlenkörper in *Boophilus microplus* ticks ingesting a blood-passaged strain of 350

Babesia motasi isolated from Wales, Investigations on 239

Bacterial endotoxins and the pathogenesis of fatty liver-haemorrhagic syndrome in the laying hen 259

Barley naturally contaminated with ochratoxin A and groundnut meal contaminated with low concentrations of aflatoxin B_1, Effect on calves of 213

Benzimidazole anthelmintics, some novel, Biological activity of 257

Benzimidazole-resistant *Haemonchus contortus, Ostertagia circumcincta* and *Trichostrongylus colubriformis*, Efficacy of oxfendazole administered as a single dose or in a controlled release capsule against 289

Biochemical and Haematological effects of a single intramuscular dose of 6α-methylprednisolone acetate in the dog 236

Biopsy sampling, repeated, Effect of, on endometrial concentrations of sodium benzylpenicillin following intramuscular injection in pony mares 287

Blastogenic response of peripheral blood mononuclear cells to mitogen and antigens by bovine pulmonary macrophages and their culture supernatants, Inhibition of 272

Blood — Changes in plasma enzyme activities and other blood components in response to acute and chronic liver damage in cattle 1

Blood composition and urinary mineral excretion in the sheep, Changes in, in response to acute acid-base disturbance 43

Boophilus microplus ticks ingesting a blood-passaged strain of *Babesia bigemina*, Increased numbers of strahlenkörper in 350

Bronchitis vaccine, live infectious, Cell mediated humoral immune response of chickens to 182

Brown adipose tissue in the pig, Evidence for the presence of 76

Brucella abortus strain 19 infection, Persistence of, in adult cattle vaccinated with reduced doses 342

Bursa of Fabricius of day-old chickens, Effect of infection of, with infectious laryngotracheitis virus on subsequent bursa development and antibody responses 136

Bursal perfusate, Effect of, on IgG antibody production in incomplete surgically and hormonally bursectomised chickens 5

Calorific deprivation, total, Effect of, on host defence in the horse 369

Capripox viruses found in Kenya, Relationships of, with two Middle Eastern strains and some orthopox viruses 253

Carcinoma, bovine ocular squamous cell, Autografting and allografting of 48
Carcinoma, squamous cell, of horn, Thymus derived rosette forming cell counts and lymphocyte response to phytohaemagglutinin in animals affected with 144
Cardiac arrest, Effect of, on exsanguination in pigs 82
Cardiovascular and renal effects of enflurane and halothane in the dog 177
Catheterised ewes fed once daily or at hourly intervals during late pregnancy, Within-day variations in the composition of maternal and fetal plasma from 224
Closantel and disophenol, Prolonged anthelmintic effect of, against a thiabendazole selected resistant strain of *Haemonchus contortus* in sheep 103
Cloxacillin and rifampicin, alone and in combination, Therapy of experimental staphylococcal mastitis in the mouse with 295
Colostral IgG, Absorption of, by the newborn lamb: influence of the length of gestation, the birthweight and thyroid function 190
Copper deficiency, Some effects, on leucocyte function in sheep and cattle 151
Cryptosporidium, Experimental infection of piglets with 358

Diacetoxyscirpenol toxicity in pigs 131
Dictyocaulus arnfieldi, Natural infection with, in pony and donkey foals 278
Dictyocaulus viviparus in vitro, Cell adherence to larvae of 389
Disophenol and closantel, Prolonged anthelmintic effect of, against a thiabendazole selected resistant strain of *Haemonchus contortus* in sheep 104

Endocrine and ovarian changes in dairy cattle fed a low β-carotene diet during an oestrus synchronisation regime 377
Endometrial concentrations of sodium benzylpenicillin, Effects of repeated biopsy sampling on, following intramuscular injection in pony mares 287
Endotoxins, Bacterial, and the pathogenesis of fatty liver-haemorrhagic syndrome in the laying hen 259
Enflurane and halothane in the dog, Cardiovascular and renal effects of 177
Erythrocyte 2,3-diphosphoglycerate in sheep and cattle, Postnatal changes in 37
Erythrocyte glutathione peroxidase activity in Finn sheep, Variation of 267
Escherichia coli mastitis in the dairy cow, Factors influencing the outcome of 107
Exsanguination in pigs, Effect of cardiac arrest on 82

Fasting in steers, Metabolic effects of 127
Fatty liver-haemorrhagic syndrome in the laying hen, the pathogenesis of, and Bacterial endotoxins 259
Fluke-infected and fluke-free cattle, Responses of, in experimental reinfection with *Salmonella dublin* 120

Gamma glutamyl transferase and 5-nucleotidase activities, Distribution of, in the tissues of the horse 312
Gastrin and plasma pancreatic polypeptide in sows, Changes in, after eating and atropine 140
Gastrointestinal nematodes from goats, Investigations for anthelmintic resistance in 116
Glutathione peroxidase — Variation of erythrocyte glutathione activity in Finn sheep 267
Groundnut meal contaminated with low concentrations of aflatoxin B_1 and barley naturally contaminated with ochratoxin A, Effect on calves of 213

Haematological and biochemical effects of a single intramuscular dose of 6α -methylprednisolone acetate in the dog 236
Haemonchus contortus in sheep, Prolonged anthelmintic effect of closantel and disophenol against a thiabendazole selected resistant strain of 104
Haemonchus contortus, Ostertagia circumcincta and *Trichostrongylus colubriformis,* benzimidazole-resistant, Efficiency of oxfendazole administered as a single dose or in a controlled release capsule against 289
Haemonchus contortus third stage larvae in sheep: kinetics of arrival into the abomasum and transformation during rumino-omasal transit 384
Halothane and enflurane in the dog, Cardiovascular and renal effects of 177
Herpesvirus 2, bovid, Infection of sheep and goats with 353
Host defence in the horse, Effect of total calorific deprivation on 369

IgG antibody production in incomplete surgically and hormonally bursectomised chickens, Effect of bursal perfusate on 5
IgG_1, colostral, Absorption of, by the newborn lamb: influence of the length of gestation, the birthweight and thyroid function 190
Imidocarb dipropionate toxicity in horses, Clinicopathological aspects of 54
Immunisation of lambs against infection with *Taenia ovis* using an extract of *Taenia ovis* eggs 90
Immunity, humoral, Regulation of in the piglet by immunoglobulins of maternal origin 195
Immunoglobulin content of the respiratory tract secretions of piglets from birth to 10 weeks old 40
Immunoglobulins in abomasal fluids of aborted and unaborted bovine fetuses 161
Immunoglobulins of maternal origin, Regulation of humoral immunity in the piglet by 195
Infectious bronchitis virus, Influence of temperature of incubation on chicken embryo tracheal organ cultures and chick embryos infected with strains of 14
Infectious laryngotracheitis virus, Effect of infection of the bursa of Fabricius of day-old chickens with, on subsequent bursa development and antibody responses 136
Influenza, swine, An epidemic of, in Japan 345

Laryngotracheitis virus, infectious, Effect of infection of the bursa of Fabricius of day-old chickens with, on subsequent bursa development and antibody responses 136
Leptospiral infection in pigs in southern England, Serological and bacteriological survey of 169
Leptospires of the Australis serogroup, Inapparent infection of sheep in Britain by 386

Leucocyte diurnal rhythms in normal and pinealectomised juvenile female fowls 113
Leucocyte function in sheep and cattle, Some effects of copper deficiency on 151
Leucocytes, dog, Electronic counting of, Discrepancies arising from calibration with Coulter standard 4C and with the haemocytometer 249
Leucocytes — Microscopic study of increased vascular permeability and leucocyte emigration in the chicken wing web 231
Levamisole hydrochloride, thiabendazole and the major avermectins, Efficacy of, against *Trichostrongylus colubriformis* in the gerbil *(Meriones unguiculatus)* 255
Liver damage, acute and chronic, in cattle, Changes in plasma enzyme activities and other blood components in response to 1
Lymphocyte response to phytohaemagglutinin in animals affected with squamous cell carcinoma of horn, and Thymus derived rosette forming cell counts 144
Lymphocyte — Surface markers for characterisation of bovine blood lymphocyte populations and changes in these from birth to maturity 315
Lymphocytes, In vitro responses of, from cattle with advanced *Mycobacterium paratuberculosis* infection to homologous and heterologous antigens 93
Lymphocytes, pig, Effect of dietary vitamin E and selenium on the phytohaemagglutinin response of 301

Malignant catarrhal fever virus, Influence of temperature on the growth in cell culture of 164
Markers, Surface, for characterisation of bovine blood lymphocyte populations and changes in these from birth to maturity 315
Mastitis, *Escherichia coli* in the dairy cow, Factors influencing the outcome of 107
Mastitis experimental staphylococcal, in the mouse, Therapy of, with cloxacillin and rifampicin, alone and in combination 295
Measurement of fetal tissue protein synthetic rate in the lamb in utero 336
Metabolic effects of fasting in steers 127
Methylprednisolone acetate — Haematological and biochemical effects of a single dose of 6α-methylprednisolone acetate in the dog 236
Microscopic study of increased vascular permeability and leucocyte emigration in the chicken wing web 231
Mitogen and antigens, Inhibition of the blastogenic response of peripheral blood mononuclear cells to, by bovine pulmonary macrophages and their culture supernatants 272
Molar, second, eruption, Use of in age estimation of cattle 65
Muscle fibre composition, Skeletal, in the dog and its relationship to athletic ability 244
Mycobacteria killed by phenol, Specificity of purified protein derivative extracts from cultures of 284
Mycobacterium paratuberculosis infection, advanced, In vitro responses of lymphocytes from cattle with, to homologous and heterologous antigens 93
Mycoplasmas, bovine respiratory tract, In vitro activity of tiamulin against 174

Nematodes, gastrointestinal, from goats, Investigations for anthelmintic resistance in 116
Nematodirus battus, Ecology of the free living stages of 323
5-nucleotidase and gamma glutamyl transferase activities, Distribution of, in the tissues of the horse 312

Ochratoxin A — Effect on calves of barley naturally contaminated with ochratoxin A and groundnut meal contaminated with low concentrations of aflatoxin B_1 213
Oesophagostomum dentatum, Experimental infection of pigs with: pathogenesis and parasitology of repeated mass infection 10
Oestrus synchronisation regime, Ovarian and endocrine changes in dairy cattle fed a low β-carotene diet during 377
Orthopox — Relationships of capripox viruses found in Kenya with two Middle Eastern strains and some orthopox viruses 253
Ostertagia circumcincta, *Trichostrongylus colubriformis* and *Haemonchus contortus*, benzimidazole-resistant, Efficiency of oxfendazole administered as a single dose or in a controlled release capsule against 289
Ovarian and endocrine changes in dairy cattle fed a low β-carotene diet during an oestrus synchronisation regime 377
Oxfendazole, Efficiency of, administered as a single dose or in a controlled release capsule against benzimidazole-resistant *Haemonchus contortus*, *Ostertagia circumcincta* and *Trichostrongylus colubriformis* 289

Pancreatic polypeptide, plasma, and gastrin in sows, Changes in, after eating and atropine 140
Pasteurella multocida type A (bovine origin), Ultrastructural observations on 87
Phenol, Specificity of purified protein derivative extracts from cultures of mycobacteria killed by 284
Phenolsulphonphthalein — Plasma phenolsulphonphthalein index in experimental renal disease in sheep 129
Phytohaemagglutinin, lymphocyte response to, in animals affected with squamous cell carcinoma of horn, and thymus derived rosette forming cell counts 144
Phytohaemagglutinin response of pig lymphocytes, Effect of dietary vitamin E and selenium on 301
Plasma enzyme activities and other blood components, Changes in, in response to acute and chronic liver damage in cattle 1
Plasma pancreatic polypeptide and gastrin in sows, Changes in, after eating and atropine 140
Plasma phenolsulphonphthalein index in experimental renal disease in sheep 129
Plasma — Within-day variations in the composition of maternal and fetal plasma from catheterised ewes fed once daily or at hourly intervals during late pregnancy 224
Pneumonia, natural canine adenovirus, Pathology of 207
Polypeptide, plasma pancreatic, and gastrin in sows, Changes in, after eating and atropine 140

Prostaglandin — Half-life of 13,14-dihydro-15-keto-prostaglandin $F_{2\alpha}$ in peripheral plasma of the pig 387
Protein synthetic rate, fetal tissue, Measurement of, in the lamb in utero 336

Raillietina cesticillus: rejection by bursa-deficient chickens 373
Renal and cardiovascular effects of enflurane and halothane in the dog 177
Renal disease — Plasma phenolsulphonphthalein index in experimental renal disease in sheep 129
Resistance, anthelmintic, in gastrointestinal nematodes from goats, Investigations for 116
Respiratory tract mycoplasmas, bovine, In vitro activity of tiamulin against 174
Respiratory tract secretions of piglets from birth to 10 weeks old, Immunoglobulin content of 40
Rifampicin and cloxacillin, alone and in combination, Therapy of experimental staphylococcal mastitis in the mouse with 295

Salmonella dublin, Responses of fluke-infected and fluke-free cattle in experimental reinfection with 120
Salmonellosis, acute, in calves, Appraisal of the suitability of a disease model of, for chemotherapeutic studies 19
Salmonellosis, calf, model, Use of, to evaluate the therapeutic properties of trimethoprim and sulphadiazine and their mutual potentiation in vivo 27
Selenium and vitamin E, dietary, Effect of, on the phytohaemagglutinin response of pig lymphocytes 301
Skeletal muscle fibre composition in the dog and its relationship to athletic ability 244
Sodium benzylpenicillin, Effect of repeated biopsy sampling on endometrial concentrations of, following intramuscular injection in pony mares 287
Specificity of purified protein derivative extracts from cultures of Mycobacteria killed by phenol 284
Squamous cell carcinoma of horn, Thymus derived rosette forming cell counts and lymphocyte response to phytohaemagglutinin in animals affected with 144
Staphylococcal mastitis, experimental, in the mouse, Therapy of, with cloxacillin and rifampicin, alone and in combination 295
Strahlenkörper, Increased numbers of, in *Boophilus microplus* ticks ingesting a blood-passaged strain of *Babesia bigemina* 350
Sulphadiazine and trimethoprim and their mutual potentiation in vivo, Use of a calf salmonellosis model to evaluate the therapeutic properties of 27
Surface markers for characterisation of bovine blood lymphocyte populations and changes in these from birth to maturity 315
Swine influenza, An epidemic of, in Japan 345

Taenia ovis, Immunisation of lambs against infection with, using an extract of *Taenia ovis* eggs 90
Taenia saginata metacestodes in Britain, Antibody levels in cattle naturally infected with 62
Temperature, Influence of, on the growth in cell culture of malignant catarrhal fever virus 164
Tenosynovitis (viral arthritis), suspected, in chickens, Isolation of viruses from outbreaks of 100
Thiabendazole, levamisole hydrochloride and the major avermectins, Efficacy of, against *Trichostrongylus colubriformis* in the gerbil *(Meriones unguiculatus)* 255
Thiabendazole selected resistant strain of *Haemonchus contortus* in sheep, Prolonged anthelmintic effect of closantel and disophenol against 104
Thymus derived rosette forming cell counts and lymphocyte response to phytohaemagglutinin in animals affected with squamous cell carcinoma of horn 144
Tiamulin, In vitro activity of, against bovine respiratory tract mycoplasmas 174
Tooth development, maxillary, Use of, to estimate age in a group of Hereford cross Friesian steers 328
Toxicity, Diacetoxyscirpenol, in pigs 131
Trichostrongylus colubriformis, Haemonchus contortus and *Ostertagia circumcincta,* benzimidazole-resistant, Efficiency of oxfendazole administered as a single dose or in a controlled release capsule against 289
Trichostrongylus colubriformis in the gerbil *(Meriones unguiculatus),* Efficacy of thiabendazole, levamisole hydrochloride and the major avermectins against 255
Trimethoprim and sulphadiazine and their mutual potentiation in vivo, Use of a calf salmonellosis model to evaluate therapeutic properties of 27
Tumours — A ^{125}IUdR technique for measuring the cell loss from subcutaneously growing canine transmissible venereal tumours 306

Uncinaria stenocephala infections in British greyhounds, Studies on the epidemiology of: development and persistence of larvae in herbage 264
Urinary mineral excretion and blood composition in the sheep, Changes in, in response to acute acid-base disturbance 43

Vaccines, live infectious bronchitis, Cell mediated and humoral immune response of chickens to 182
Vascular permeability — Microscopic study of increased vascular permeability and leucocyte emigration in the chicken wing web 231
Vitamin E and selenium, dietary, Effect of, on the phytohaemagglutinin response of pig lymphocytes 301
